PORTFOLIO

HEY, NICE TO MEET YOU.
IN THE FOLLOWING PAGES
YOU’RE GONNA LEARN ABOUT ME
AND WHAT I DO.
ENJOY.

NICO
DEISTER

Hi, I'm Nico - I'm a designer based in Germany.
I have a background in UI and Media Design.
When I'm not not designing I'm probably
watching a video on tech.

🏠 Münster, Germany
📅 26th Jan 1996

WEBSITE & CI - ORGANISATION NATURNAH TELGTE

I was in charge of developing the website for the Naturnah Telgte association, from logo and design development to technical implementation. The aim was to bring the values of the organisation to life with a clear, modern design and a user-friendly structure.

Über NATURNah

Der Verein NATURNah | Unser Garten in Telgte e.V.
schafft für interessierte Bürgerinnen und Bürger
die Möglichkeit Naturerlebnisse gemeinsam
gestalten und begleiten zu können.

The website was designed in such a way that it authentically reflects the association's closeness to nature. To this day, I maintain the website in close collaboration with the association and keep it up to date both technically and in terms of content.

CITYLIGHTPOSTER - PREVENTION OF GAMBLING ADDICTION

For the Glüxxit prevention programme, I designed a city light poster that draws attention to the dangers of gambling addiction. I deliberately opted for a sentimental approach in order to convey the message emotionally and clearly.

A particular focus was on creating an eye-catching design that would reach many people - especially those affected. From concept development to the final design, this claim was at the centre of my work.

Corporate Identity

CORPORATE IDENTITY - FOR A HAMBURG-BASED AGENCY

I developed a modern and concise corporate identity for a Hamburg agency that integrates the Elbphilharmonie concert hall as the central figurative mark. The aim was to create a design that reflects the young, dynamic orientation of the company and its strong roots in Hamburg's culture.

Working closely with the agency, I went through several design phases to develop an image that is both unique and versatile. From the logo to other visual elements, everything was designed to clearly position the brand and create recognition value.

CREATING DESIGNS AND SOLUTIONS AT VIAPRINTO

As a designer at viaprinto, I was actively involved in the development of responsive designs. My contributions to the complete redesign of the header, the order process and the user section were particularly influential (for me).

From the design of initial concepts and prototypes to usability tests, handover to development and final testing, I was involved in all phases. I am particularly proud of some of the design elements that were implemented on the final site thanks to my efforts and made a significant contribution to user-friendliness.
